CAREER SUMMARY

Senior Software Engineer with **6+ years of experience** designing and leading full-stack e-commerce solutions using Ruby on Rails and Spree Commerce. Proven team lead with deep expertise in **microservices architecture** , **CI/CD pipelines** , and cloud deployments across AWS and DigitalOcean.

Practitioner of **Spec Driven Development** — writing detailed feature specifications before implementation to align stakeholders, reduce rework, and ship predictable, well-tested software. Experienced in translating business requirements into precise specs that drive development across cross-functional teams.

Track record of delivering **scalable, maintainable applications** for international clients, contributing to open source (Spree ecosystem), and leveraging **AI-assisted development tools** - including GitHub Copilot, Cursor, and Claude — to accelerate delivery without compromising code quality.

Also experienced in building **EMR (healthcare)** and **CRM/ERP applications** , with a focus on workflow automation, data integrity, and business process optimization.

WORK EXPERIENCE

Senior Software Engineer I

February 2025 - Present

Sysvine Technologies

Leading the CPVN microservices project, managing team deliverables, and driving end-to-end development. Hands-on experience includes React frontend development, Docker-based deployments, and agile practices such as retrospectives and sprint planning.

Achievements & Optimization:

- Led the CPVN internal microservices project, ensuring modular, scalable, and maintainable architecture.
- Streamlined Docker-based deployments, improving CI/CD efficiency and reducing release cycles.
- Coordinated React frontend development, ensuring smooth integration with backend services.
- Conducted retrospective and sprint meetings to optimize workflows and team performance.
- Enhanced project visibility and collaboration through agile methodologies and effective team management.

Skills:

Microservices React Agile Methodologies Docker Project Leadership

Senior Software Engineer (Team Lead)

August 2020 - January 2025

Bluebash Consulting Private Limited

A proven Senior Software Engineer excelling in leadership and technical execution. Orchestrates efficient project cycles, ensuring quality and timely delivery. Specialized in Ruby on Rails and Spree e-commerce, with a focus on optimizing team performance and aligning objectives with business goals.

Achievements & Optimization:

- Spearheaded a proficient software engineering team, orchestrating project development cycles and ensuring adherence to timelines and quality benchmarks.
- Collaborated seamlessly with cross-functional teams, defining project scopes, requirements, and deliverables.
- Provided authoritative technical leadership, influencing key architectural decisions and ensuring coding best practices.
- Successfully executed projects, leading to measurable enhancements in efficiency, user experience, and cost-effectiveness. Implemented agile methodologies, optimizing project management processes.

Skills:

Leadership Collaboration Technical Leadership Subject Matter Expertise Project Execution Team Development Agile Methodologies Collaboration with Management

Internship

June 2019 - July 2019

Allsoft Solutions

Contributed to data analysis using tools like Hadoop and Spark. Collaborated with a multidisciplinary team and actively supported project goals. Conducted hands-on data analysis and visualization, gaining practical experience.

Skills:

Hadoop Hive Pig

OPEN SOURCE CONTRIBUTIONS

Spree eCommerce

<https://spreecommerce.org>

Spree

Contribution: Updated documentation for the Spree gem, improving clarity and accuracy for developers and enhancing accessibility.

Impact: Improved developer experience by providing comprehensive and up-to-date documentation, facilitating easier adoption and usage of the Spree extension by the community.

Spree Admin Dashboard

Contribution: Enhanced the Spree Backend (Spree Admin Dashboard) sidebar configuration, improving the user experience by making the navigation more intuitive and user-friendly.

Impact: Improved the usability of the Spree Admin Dashboard for users, facilitating easier access to essential features and functionalities, and enhancing overall productivity and satisfaction for administrators managing their stores.

Spree Analytics Trackers

Contribution: Enhanced compatibility of the Spree Analytics Trackers gem with Spree 4.7, ensuring seamless integration and functionality for users upgrading to the latest Spree release.

Impact: Streamlined the transition process for Spree users, enabling them to leverage the latest features and improvements without disruptions caused by compatibility issues.

PROJECTS

Cookies

Sep 2024 - Dec 2024

<https://lemonnade.co/>

Cookies is a premium cannabis brand offering high-quality products like flower, pre-rolls, vapes, and edibles. Their mobile app enhances the experience with product browsing, store locators, and updates on events and promotions.
